The Force of Light

Introducing the X3 from iXtreme

BRONZE Direct

The Force of Light

iXtreme vertical tanning beds offer the **highest quality in design and reliability,** with clever technologies to ensure **impressive performance** and **outstanding tanning results.**

With 200 watts of power and a choice of 50 or 58 body lamps, the X3 delivers an unrivalled tanning experience. Its sleek clean lines are enhanced with changeable LED lights, making it look as impressive as the results it delivers.

It's this combination of megapower tanning and external LED light show that makes the X3 a force of light.

Features

Every detail of the iXtreme professional tanning range has been carefully designed to ensure an amazing energy efficiency and a beautiful tanning experience.

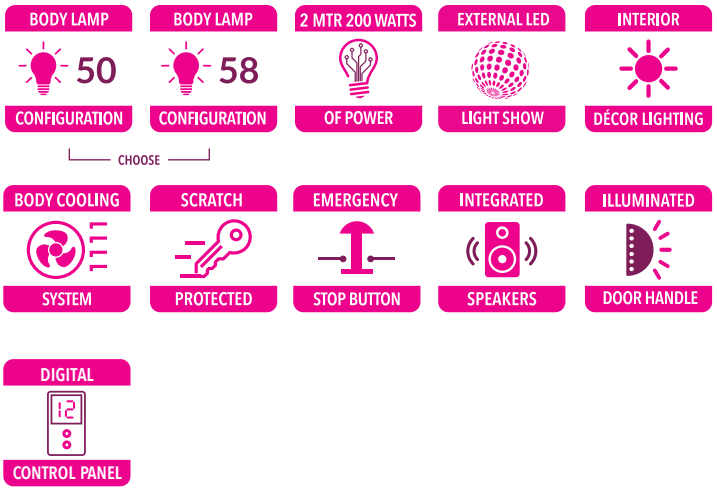

Standard features include integrated high-performance speakers and an automatically controlled cooling system to ensure maximum client comfort throughout the tanning session.

The X3 vertical tanning unit is highly customisable with an extensive range of options and configurations to allow personalisation to suit your requirements and demands.

Choose from 50 or 58 body lamps, electronic ballasts, and optional extras that include aroma breeze and aqua fresh, a vibrating toning base plate, and collagen LED facial panels, allowing you to offer your clients something extra special.
